Files can be downloaded from any computer from our high speed servers. You don't need any special software installed to be able to download your files. If only we could, we surely would! On the other hand, using file can actually save you money. We have no file size limit. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You can upload any type of file (movies, music, documents, images, zip files and more). You can give this download link to your friends by mail or instant messenger. So try our free and simple filehosting service now. filehosting provides an easy possibility for you to send large files to your friends. Unfortunately, we can't make that part free. No account or credit card is required to get started. Keep your files private, or send your download links only to friends or family. Just upload the file you want to share with your friends and we send you a download link to your file.
